

Overview of the Public Opinion Survey on Social Awareness

April 2018

Public Relations Office, Cabinet Office
The Government of Japan

- Survey target:** 10,000 Japanese nationals of age 18 years or above nationwide
Valid responses: 5,742 people (Response rate: 57.4%)
- Survey period:** 25 January - 11 February 2018 (In some areas until 18 February)
- Survey method:** Face-to-face interviews conducted by survey officers
- Objectives:** To survey the trends for the fundamental awareness of people toward society and the country, and to use the data as basic material for general administrative purposes.
- Survey items:**
1. Relationship with the country and society
 2. Awareness of the current state of society
 3. Evaluation of the government's policies
- Track record:** In principle, the survey has been conducted every fiscal year since FY1968, this being the 47th survey.
(Since the survey for FY2006, the respondents are informed that the survey is conducted by the Cabinet Office.)
- Note:** This document indicates "↑" or "↓" for responses with a statistically significant difference (95% confidence interval), in comparison with past survey results.

1. Relationship with the Country and Society

(1) Feelings of love for the country
